BRAND STORY

The Council of State and Territorial Epidemiologists (CSTE) works to advance public health policy and epidemiologic capacity. We also provide information, education, and developmental support of practicing epidemiologists in a wide range of areas as well as expertise for program and surveillance efforts.

CSTE is an organization of member states and territories representing public health epidemiologists. CSTE works to establish more effective relationships among state and other health agencies. It also provides technical advice and assistance to partner organizations and to federal public health agencies such as the Centers for Disease Control and Prevention (CDC). CSTE members have surveillance and epidemiology expertise in a broad range of areas including occupational health, infectious diseases, environmental health, chronic diseases, injury, maternal and child health, and more. CSTE supports effective public health surveillance and sound epidemiologic practice through training, capacity development, and peer consultation.

MISSION

- Promote effective use of epidemiologic data to guide public health practice and improve health
- Support effective public health surveillance and epidemiologic practice through training, capacity development, and peer consultation
- Develop standards for practice
- Advocate for resources and scientifically based policy

VISION

Using the power of epidemiology to improve the public's health

**COUNCIL OF STATE AND
TERRITORIAL EPIDEMIOLOGISTS**

LOGO USAGE

The CSTE logo is the foundation of our brand and the visual representation of our organization. To facilitate consistency and extend our brand recognition, we want to ensure proper use.

LOGO WITH DESCRIPTION

The preferred use of the our organization's logo is to include the circular icon, CSTE acronym, and the acronym spelled out.

LOGO WITHOUT DESCRIPTION

The CSTE logo without the description can be used when there are space restrictions and in industry publications, site, and events—where the CSTE is a recognized organization.

ICON ONLY

The icon only is ideal for internal use and when the audience is familiar with the CSTE brand.

DESCRIPTION ONLY

The description only should be use to enhance the organization logo or icon. It should not be used as a stand-alone element of the CSTE logo.

COLOR PALETTE

Color helps us create brand recognition and visual interest across our communications. Color is an essential means to exude CSTE with every interaction. The consistent use of our color palette reminds our audience that we are committed to staying involved with them.

The Midnight Blue inspires feelings of trust, loyalty, integrity, and responsibility. The Sky Blue emanates expansiveness, inspiration, and sensitivity.

- 1. PRIMARY COLORS
Midnight Blue and Sky Blue are the CSTE primary colors; they are the colors of our organization’s logo.
- 2. SUPPORTING COLORS
These are our supporting colors used to differentiate the categories of our steering committees.

TYPOGRAPHY: PRINT

Typographic is a key communication and design element that unifies the CSTE brand and personality. We have selected the Robot font family for headings and subheadings. The Avenir LT Std Book font is used for body text.

ROBOTO

Roboto belongs to the neo-grotesque genre of sans-serif typefaces. CSTE uses the Regular, Medium, and Black weights for headings and sub-headings. When appropriate, and with brevity, Light, Thin, and condensed styles can be used.

AVENIR

The word avenir is French for "future." Avenir is a sans-serif typeface that takes inspiration from the geometric style of sans-serif typeface like Futura. CSTE uses Avenir LT Std Book as its standard font for all body text in print communication.

LATO

TYPOGRAPHY: WEB

CSTE uses the Lato as its primary font for the web.

LATO

Lato is a sans serif typeface family. The semi-rounded details of the letters give Lato a feeling of warmth, while the strong structure provides stability and seriousness.

ICONOGRAPHY

We use five icons in the CSTE brand to represent the topics of our steering committees.

Writing authoritative and inspiring content for CSTE requires being aware of the our voice and tone.

What's the Difference?

VOICE

Voice stays the same, no matter the circumstances or feelings. Voice is essentially a brand mission statement. There should be one voice for a brand, but there can be many tones to refine that voice.

TONE

Tone changes. You might use one tone when you're in a more casual setting with friends or family, and a different tone when you're in a professional meeting with your manager.

Tone also changes depending on your emotional state — whether you're scared, upset, happy, excited, or surprised.

VOICE/TONE

How we talk is just as important as what we talk about.

The CSTE **voice** is human; it is familiar, friendly, and straightforward. Our goal is to inform and educate people without patronizing or confusing them.

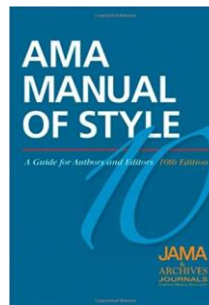

The CSTE **tone** is usually professional with a hint of conversation. We recognize the importance of being clear and concise because of the topics we cover.

A style guide is a set of standards for the writing and formatting of documents. Using guides ensures uniformity within a document and across multiple documents. CSTE go-to references include:

Chicago Manual of Style. CMS is the standard for book publishing (fiction and non-fiction). It is not generally used for scholarly publishing (i.e., journals and research), although it is sometimes used for history. CMS is currently in its 17th edition.

The American Medical Association. AMA is currently in its 10th edition of the style guide, printed by Oxford Press. This is the go-to manual for health, medicine, and biology subjects.

WRITING STYLE

The CSTE signature writing style is professional and informational.

When you're writing, consider the reader's and use these helpful tips as a basis:

- Use active voice. Avoid passive voice.
- Avoid slang and jargon. Write in plain English.
- Use positive language rather than negative language.
